

MISCELLANEOUS FORMS OF SERVICE

PAY TELEPHONE LINE SERVICE

I. GENERAL

- A. Pay Telephone Line exchange service is one-party service for use by pay telephone providers, location owners and interexchange carriers and is furnished solely for connection with coin, coinless, or combination coin/coinless pay telephone equipment to the Telephone Company's network.
- B. Pay Telephone Line Service
 - 1. Will be considered a business service for the purpose of applying the terms, rates and conditions found in this Product Catalog.
 - 2. Directory listings may be provided under the regulations that govern the furnishing of listings for business customers.
 - 3. One directory will be distributed to the customer without charge for each Pay Telephone Line.
 - 4. Only one coin-operated or coinless public access telephone unit may be connected to each Pay Telephone Line.
 - 5. The customer is responsible for the provision of booths, shelves, directories and all other ancillary equipment.
 - 6. Will be provided on a dial-tone-first basis to enable end users to dial certain calls without requiring coin deposits, i.e., all emergency calls, telecommunications relay service calls, and non-sent paid calls.
 - 7. The pay telephone provider is responsible for meeting all federal, state and local statutes with respect to provision of pay telephones in accordance with all hearing impaired and handicapped person requirements.
 - 8. Pay telephone connected to a Pay Telephone Line must be registered in compliance with Part 68 of the FCC's Rules and Regulations.

PAY TELEPHONE LINE SERVICE (cont.)

I. GENERAL (cont.)

B. Pay Telephone Line Service (cont.)

9. Each pay telephone connected to a Pay Telephone Line must be capable of providing user call completion to 911 service.
10. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance calls. The company shall not be liable for shortages of coins collected and deposited at the customer's paystation instrument.
11. Failure of subscriber to comply with provisions of this Product Catalog may result in the suspension or disconnection of the subscriber's service.

II. REGULATIONS AND RATES

- A. Pay Telephone Line Service is provided at the one-party business line rate as contained in the Telephone Company's Product Catalog.
- B. Line Connection charges listed in this Product Catalog apply to Pay Telephone Line Service, if requested by the customer.
- C. Requests to Directory Assistance Service originated from paystations will be charged the applicable rate of the Directory Assistance Service Provider.
- D. All subscribers to Pay Telephone Service shall have the right to select their presubscribed intraLATA toll provider.
- E. The Multiline Business Subscriber Line charge, found in the interstate access tariff, is applicable to all paystation access lines.

PAY TELEPHONE LINE SERVICE (cont.)

III. AVAILABLE FEATURES FOR PAY TELEPHONE SERVICE

A. Optional coin supervision functions, as listed below are provided at the monthly rates stated.

1. Coin-Supervision Additive – provided for the collection, return, recognition, announcements and pre-prompting for overtime; monitors signals from the pay telephone equipment to identify when and what denomination of coins are deposited; identifies the status of attempted calls and sends a signal to the pay telephone equipment to collect the appropriated coins when calls are completed, or returns coins when calls are not completed.

B. Rates

| | Monthly | Non-recurring |
|------------------------------|---------|---------------|
| 1. Coin Supervision Additive | \$2.21 | N/A |

DIRECTORY LISTINGS

I. GENERAL

- A. The rates and regulations for directory listings apply only to the listings in the alphabetical directory.
- B. Directory listings are intended solely as an aid to the use of the telephone system; and therefore, listings are limited to such information as is essential to the identification of the listed party. The listing of a service, commodity or trade name as such, will in no case be permitted unless the name of the service or of the commodity or the trade name is the name or an integral part of the name under which the customer is doing business.
- C. A listing will be limited to one line in the directory, except where in the judgment of the Telephone Company more than one line is required to properly identify the customer. In such cases, the additional lines required will be provided at no extra cost.
- D. Directory listings must conform to the Telephone Company's specifications with respect to its directories.
- E. Listing services are available with all classes of main telephone exchange services.
- F. Dual name listings are available for residence service customers as an initial or additional listing.

II. INITIAL LISTINGS

- A. One listing, termed the initial listing is included with each customer's service, with the initial listing included with each customer's service, with the initial line of a line hunting group, and with each joint user service.
- B. Dual name initial listings consist of:
 - 1. The first name, or first name and middle initial, or first initial and middle name, or initials only of two individuals who have the same surname and reside at the same address.
 - 2. The first name, or first name and middle initial, or first initial and middle name, or initials only, and the married name of a woman.
 - 3. Two names for one person, who may be referred to be either, with the same surname.

DIRECTORY LISTINGS (cont.)

III. ADDITIONAL LISTING SERVICE

- A. Additional listings are confined to the names of those who are entitled to use the customer's service as defined in Part 1.
- B. Additional listings are included in the alphabetical directory and on directory assistance records or appear on directory assistance records only.
- C. Additional dual name listings, provided in conjunction with the initial listing, list the second name (or initials) first and the listing is alphabetized accordingly in the Directory; in this case billing always commences with the directory delivery date of the issue of the directory in which the listing first appears.
- D. The rate for an additional listing or dual name additional listing provided for names that are not part of the initial listing, dates from the day after the directory assistance records are posted. Directory assistance records are posted either as of the delivery date of the issue of the directory in which the listing first appears or at any earlier practical date selected by the customer.
- E. If the additional listing is ordered discontinued after the closing date of the directory, the charge continues through that issue of the directory and up to the date for charges to be effective for the next directory. If the additional listing is ordered discontinued before the closing date of the directory in which it would first appear, the charge continues only to the date of cancellation by the customer with a minimum service period of one month.

Note: The Directory Listing Service Charge will not apply for Dual Name Listing requests.

IV. NON-PUBLISHED SERVICE

- A. Non-published service is not listed in the Telephone Company's directories or on directory assistance records.
 - B. Listing information (name, address and number) on non-published service is not available to the general public notwithstanding any claim of emergency the calling party may present.
 - C. No liability for damages arising from publishing the telephone number of non-published service in the directory or by the disclosing of said number to any person shall be attached to the Telephone Company, and where such a number is published in the directory, the Company's liability shall be limited to an amount not to exceed the amount of charges made for such non-published service, as indicated in VI below.
-

DIRECTORY LISTINGS (cont.)

D. The customer indemnifies and saves the Telephone Company harmless against any claims for damages caused by the publication of the number of a non-published service or by the disclosure of said number to any person.

V. NON-DIRECTORY LISTED SERVICE

A. Telephone numbers of non-directory listed service are omitted or deleted from the Telephone Company's alphabetical directory.

B. Telephone numbers of non-directory listed service will be carried in the Telephone Company's directory assistance and other records and will be given to any calling party.

VI. RATES & CHARGES

| | Monthly Rate | |
|------------------------------|--------------|--------|
| | Res. | Bus. |
| A. Additional listings, each | \$1.13 | \$1.48 |
| B. Non-published Service | \$2.97 | \$2.97 |
| C. Non-directory Listed | \$1.48 | \$1.48 |

TEMPORARY SUSPENSION OF SERVICE

I. GENERAL

- A. Exchange service may be temporary suspended and the customer's listing retained in the directory.
- B. More than one period of temporary suspension may be permitted in any one calendar provided at least one month's full rental shall be paid for service furnished between periods of temporary suspension. The reduction of rate on account of the temporary suspension service applies during a total of not more than six months in each calendar year.
- C. The reduction of rate on account of the temporary suspension of service will not apply during the first month's period of service.

II. MONTHLY RATE

- A. The monthly rate during the temporary suspension of service of each main telephone, together with all associated mileage, service and equipment, is 50% of the regular monthly rate, with the minimum charge 50% of the regular rate for one month.

SEASONAL SERVICE

I. General

- A. Seasonal service regulations apply to the telephone service of all customers within the entire exchange.

II. Regulations

- A. When the service period includes any portion of the months of July or August, the minimum for all items of exchange service is equal to the charge for six months at the established monthly rate.
- B. If a customer requests a change of service, the minimum charge is determined from the highest established monthly rates for the services furnished for at any one time during July or August.
- C. When service is retained for a period longer than six months, the charge for each additional month is at the established rates.
- D. These seasonal service regulations do not supersede the regulations for any service or equipment requiring a minimum service period of more than six months.

RESTORAL OF SERVICE

Service that has been temporarily interrupted for non-payment of bills will be restored upon payment of all service charges due or if the customer enters into a payment arrangement for the unpaid arrearage which satisfies the provision of Rule 1203.07 of the Public Utilities Commission's Code of Administrative Rules as if there had been no interruption. An additional charge of \$8.00 is made for restoring service for each account. An account may consist of a main telephone including any other associated equipment, a main trunk with all additional trunks and associated equipment of a private line channel or service with any associated equipment.

BLOCKING OPTION

Seven-digit intraLATA toll blocking is available for any customer who may request it. Charges will not apply if this blocking option is requested to be installed or removed within the first 60 days of the installation of a network access line.

The non-recurring charge that will apply is Element 1b as listed in the Service Charges section of this Product Catalog.

TOLL BLOCKING SERVICE

Toll Blocking Service permits originated calls to be completed within the local exchange area only, and restricts 1+ and 7-digit direct dialed toll calls from completing outside the exchange boundaries.

The non-recurring charge that will apply is Element 1b as listed in the Service Charges section of this Product Catalog.

No recurring charge will apply.

CUSTOMER CALLING SERVICES

I. GENERAL

- A. Custom Calling Services are available to one-party residence or business customers (except for pay telephone line service) to the extent that facilities are available.
- B. When a call is forwarded to another exchange where a toll charge is incurred, the toll charge for the forwarded call will be billed to the Custom Calling Service customer.
- C. No assurance can be given that transmission will be fully satisfactory during Call Forward and Three Way Calling Service calls.

II. CUSTOM CALLING FEATURES

- A. **Call Waiting** signals a customer talking on a line that another call has been placed to the line. The customer may answer the second call and alternate between the calls by manipulating the switchhook. The customer may prevent, on a per call basis, any incoming calls from Call Waiting on their line. Incoming calls to the station receive busy treatment. This ensures that Call Waiting indication tones do not interrupt important calls or disrupt data transmissions.
- B. **Call Forward** permits a customer to forward all incoming calls to another preselected telephone number. The customer activates the service by dialing a code and the telephone number of the line to which the calls are to be forwarded. Call Forward, Remote Access can be added to this feature.
- C. **User Programmable Call Forward, Busy** provides forwarding capability to incoming calls that encounter a busy state. The forwarded to directory number is programmed by the customer by dialing an access code followed by the number. Call Forward, Remote Access can be added to this feature.
- D. **User Programmable Call Forward, No Answer** provides forwarding capability to incoming calls that encounter a no answer state. The forwarded to directory number is programmed by the customer by dialing an access code followed by the number. The customer also programs the number of rings before transfer to designate a no answer state. Call Forward, Remote Access can be added to this feature.

CUSTOM CALLING SERVICES (cont.)

- E. **User Programmable Call Forward, Busy/No Answer** provides forwarding capability to incoming calls that encounter a busy or no answer state. The forwarded to directory number is programmed by the customer by dialing an access code followed by the number. The customer also programs the number of rings before transfer to designate a no answer state. Call Forward, Remote Access can be added to this feature.
- F. **Call Forward, Remote Access** permits a customer to activate or deactivate the Call Forward, User Programmable Call Forward, Busy, User Programmable Call Forward, No Answer or User Programmable Call Forward Busy/No Answer feature on their telephone via DTMF tones from a local or toll remote station. The customer accesses the system by dialing a base directory number, their own directory number, followed by a Personal Identification Number (PIN) and activation/deactivation codes. The Call Forward, User Programmable Call Forward, Busy, User Programmable Call Forward, No Answer or User Programmable Call Forward Busy/No Answer, feature is required on the customer's line.
- G. **Fixed Call Forwarding – Telephone Company Administrable** allows the customer to have all calls to their directory number forwarded to a fixed number. The fixed number is administrable only by the Telephone Company.
- H. **Three-Way Calling** allows a customer to establish a talking connection involving the customer and two other parties. The customer, by switchhook operation, is able to place an existing call on hold and dial the telephone number of a third party.
- I. **Speed Calling (8 codes)** allows a customer to call a predesignated seven or ten digit telephone number by dialing a one digit code. A maximum of 8 predesignated telephone numbers can be stored.
- J. **Speed Calling (30 codes)** allows a customer to call a predesignated seven or ten digit telephone number by dialing a two digit code. A maximum of 30 predesignated telephone numbers can be stored.
- K. **Teen Service** allows two telephone numbers to be assigned to a single party line. Each telephone number is assigned a unique ringing pattern so the called party can determine the nature of the call. Each number may be assigned separate Call Waiting, Call Forwarding, and/or User Programmable Call Forward, Busy/No Answer features.

CUSTOM CALLING SERVICES (cont.)

- L. **Ring Again** service allows the customer encountering a busy station within the Dunbarton exchange to be notified when the busy station becomes idle and to be placed automatically in the ring again mode. If the redialed telephone number is busy, the called line is monitored for a maximum of 30 minutes. After hearing the Ring Again notification signal, the customer goes off hook and the switch places the call. If the customer does not go off hook within 30 seconds, the Ring Again request is cancelled.

CUSTOM CALLING SERVICES (cont.)

III. RATES AND CHARGES

The following rates and charges are in addition to all other applicable rates and charges for services and equipment furnished.

| | Monthly Rate | |
|--|--------------|-------|
| | Res. | Bus. |
| A. Call Waiting/Cancel Call Waiting Service each line equipped | 3.81 | 7.43 |
| B. Call Forward Service each line equipped | 3.81 | 7.43 |
| C. User Programmable Call Forward, Busy Service each line equipped | 5.16 | 10.18 |
| D. User Programmable Call Forward, No Answer Service each line equipped | 5.16 | 10.18 |
| E. User Programmable Call Forward, Busy/No Answer Service each line equipped | 5.81 | 11.43 |
| F. Call Forward, Remote Access Service in addition to Call Forward Service, User Programmable Call Forward, Busy Service, User Programmable Call Forward, No Answer Service, or User Programmable Call Forward, Busy/No Answer Service each line equipped | .50 | .80 |
| G. Fixed Call Forwarding – Telephone Company Administrable Service each line equipped | 3.81 | 7.43 |
| H. Three-Way Calling Service each line equipped | 4.51 | 7.43 |
| I. Speed Calling Service – 8 Code each line equipped | 2.98 | 5.94 |
| J. Speed Calling Service – 30 Code each line equipped | 5.94 | 9.20 |
| K. Teen Service each line equipped | 3.00 | 6.00 |
| L. Ring Again Service each line equipped | 3.00 | 6.00 |

CUSTOM LOCAL AREA SIGNALING (CLASS) SERVICES

I. GENERAL

- A. CLASS service consists of a set of call management features which utilize the network's ability to forward the calling party's telephone number between the originating and terminating central offices. CLASS depends on the availability of Signaling System 7 (SS7).
- B. CLASS service features are available to one party residence and one party business main telephone exchange service (except PBX trunks, pay telephone line service, foreign exchange and foreign central office services), Universal Emergency Number Service – "911" customers served by suitably equipped central offices where facilities are available. In addition, both the subscriber to the service and the other party involved in the call must either be served from the same central office or served from different central offices which are linked by SS7 facilities.
- C. Calling Number Delivery Per Call Blocking is an originating option that allows customers to control the disclosure of their directory number on a call by call basis. When activated, the option precludes the originating customer's telephone number from being displayed on the terminating customer's Caller ID display device. Activation is accomplished by the calling party dialing an activation code prior to initiating a call. Per Call blocking is available to one party residence and one party business customers. Per call blocking is not furnished for the pay telephone line service, toll access trunk lines, nor PBX trunks. There are no charges associated with Per Call blocking.

CUSTOM LOCAL AREA SIGNALING (CLASS) SERVICES (cont.)

I. GENERAL (cont.)

D.

1. Calling Number Delivery Line Blocking (Line Blocking) allows customers to automatically block the disclosure of their directory number on all originating calls. The option precludes the originating customer's telephone number from being displayed on the terminating customer's Caller ID display device. The customer can override the automatic blocking on a per call basis by dialing an activation code prior to initiating a call.

2. Line Blocking is available free of charge to Non-Published and Non-Directory Listed customers and to Domestic Violence Agencies, their staff, volunteers and safe houses. Line Blocking is also available free of charge to other customers that submit a written request to the Telephone Company asserting a specific need for line blocking for reasons of health or safety. Line Blocking is available at no charge to all other customers for the period of 30 days prior to and 60 days following the introduction of Calling Number Delivery service. Customers requesting Line Blocking after that period will incur a service charge unless they send a written request to the Telephone Company requesting Line Blocking for reasons of health or safety. Line Blocking is available to one party residence and one party business customers. Line Blocking is not furnished for pay telephone line service, toll access trunks lines, nor PBX trunks. There is no monthly charge associated with Line Blocking.

E. CLASS service features are not available when the customer completes or receives a call utilizing an interexchange carrier's facilities.

F. Satisfactory provision of CLASS service features requires technically compatible customer provided premises equipment.

G. The Telephone Company shall not be liable for failure of CLASS service features, for whatever reason, except when due to gross negligence or willful misconduct of the Telephone Company.

CUSTOM LOCAL AREA SIGNALING (CLASS) SERVICES (cont.)

II. SERVICE DESCRIPTION

- A. **Automatic Call Back** – automatically monitors and redials the telephone number of the most recent outgoing call. If the redialed telephone number is idle, the call completes immediately. If the redialed telephone number is busy, the called line is monitored for a maximum of 30 minutes. When the called line becomes idle, a distinctive ringing signal alerts the calling customer that the number is available and the call can be completed. The activation of this feature can be cancelled by the customer when desired.

The following types of calls cannot be automatically redialed:

- Calls to 800 service numbers
- Calls to 900 service numbers
- Calls preceded by an interexchange carrier access code
- Calls made on an International Direct Distance Dialed basis
- Calls to Directory Assistance Service
- Calls to universal emergency number service (911)
- Calls made with operator assistance

- B. **Calling Number Delivery** provides the originating telephone number, the date, and the time of an incoming call in the period between the first and second telephone ring. The information is displayed on a customer provided compatible display device attached to the customer's telephone line.

CUSTOM LOCAL AREA SIGNALING (CLASS) SERVICES (cont.)

- C. **Customer Originated Trace** allows a customer to trace the most recent incoming call by dialing a code immediately after terminating the call. The Telephone Company's central office equipment records and stores the incoming call message detail (date, time, and originating telephone number of the call) provided that the call was completed over a suitably equipped facility and the customer has not received another call after the call to be traced was terminated. The results of the trace are not provided to the customer directly. Call details can be obtained by an appropriate law enforcement agency when the customer files a complaint.
- D. **Selective Call Forwarding** allows customers to define a list of calling directory numbers that will be forwarded to a designated remote directory number. Any calling numbers not on that list are treated normally. Customers can review and change the list of accepted directory numbers as desired.
- E. **Selective Call Rejection** allows customers to define a list of calling directory numbers that will be routed to announcements and rejected. Any calling numbers not on that list are treated normally. Customers can review and change the list of rejected directory numbers as desired.
- F. **Selective Call Acceptance** allows customers to define a list of calling directory numbers that will be accepted. Any calling numbers not on that list are routed to announcement and rejected. Customers can review and change the list of accepted directory numbers as desired.
- G. **Distinctive Ringing/Call Waiting** allows customers to define a list of calling directory numbers that provide the customer with special incoming call treatment. Incoming calls on the list are indicated by a distinctive ringing pattern or a distinctive Call Waiting tone, if applicable. Terminating calls from telephone numbers which cannot be identified, or which are not on the list, are given standard treatment. Customers can review and change the list of accepted directory numbers as desired.
- H. **Calling Number and Calling Name Delivery** provides the name and number associated in the Telephone Company's records with the line from which an incoming call originates, including names and numbers associated with non-published and non-listed service. The name and the calling number are displayed on customer provided premises equipment attached to the customer's telephone line. Per call blocking and line blocking will prohibit the display of both name and number.

CUSTOM LOCAL AREA SIGNALING (CLASS) SERVICES (cont.)

- I. **Caller ID with Call Waiting** allows a customer who is offhook on an existing call to receive the Caller ID (number only or number and name) information for a new, incoming call allowing the customer to decide the disposition of the call in progress. The Customer must subscribe separately to Call Waiting to take full advantage of this service. Three way calling is optional, depending on the functionality desired. The customer is required to purchase customer premises equipment that is capable of displaying Caller ID with Call Waiting information, in addition to facilitating disposition options.
- J. **Call Return** automatically redials the telephone number of the most recent incoming call. If the telephone number of the most recent incoming call is idle, the call completes immediately. If the telephone number is busy, the line of the most recent incoming call is monitored for a maximum of 30 minutes. When the line becomes idle, a distinctive ringing signal alerts the subscriber that the call can now be completed. The following types of calls cannot be returned:
- Calls from PBX station lines
 - Calls from DID station lines
 - Calls from lines equipped with Line Blocking
 - Calls from lines which have activated Per Call Blocking
- K. **Anonymous Call Rejection** allows a customer to redirect incoming calls for which calling name and number display has been suppressed through the use of per call or line blocking, to an announcement indicating that the customer is not presently accepting such calls. The customer may activate and deactivate the feature without charge by dialing a code.

Upon receiving the anonymous call rejection announcement, the calling party may either reverse the blocking status of his/her line and redial or elect not to redial the call.

Anonymous Call Rejection is provided automatically to customers subscribing to Calling Number Delivery, Calling Number and Calling Name Delivery, and Caller ID with Call Waiting. Anonymous Call Rejection initially will be provided in a deactivated state.

CUSTOM LOCAL AREA SIGNALING (CLASS) SERVICES (cont.)

IV. RATES AND CHARGES

- A. The following rates and charges for both residential and business customers are in addition to all other applicable rates and charges for services and equipment furnished.
- B. Customers subscribing to Customer Originated Trace are subject to an activation charge each time a call is successfully traced.
- C. Nonrecurring charges do not apply for the first application of Line Blocking to a customer's line for the period of 30 days prior to 60 days after the introduction of Calling Number Delivery. The nonrecurring element 1b charge listed in the Service Charges section of this Product Catalog applies for any subsequent application of Line Blocking to that line unless the customer sends a letter to the Telephone Company requesting Line Blocking for reasons of health or safety or the customer has non-published or non-directory listed service.
- D. Call Return and Automatic Call Back are available on a monthly charge basis or on a per activation basis to customers served by a suitably equipped central office. The activation charge applies each time the feature is successfully activated. Activation charges do not apply when the customer elects call return and/or automatic call back on a monthly charge basis.

CUSTOM LOCAL AREA SIGNALING (CLASS) SERVICES (cont.)

E. Rates and Charges

| | Monthly Rate |
|---|----------------|
| 1. Automatic Call Back each line equipped | 2.25 |
| 2. Calling Number Delivery each line equipped | 4.95 |
| | Per Activation |

| 10. Caller ID (number & name) with Call Waiting each line equipped | 5.95 |
| 11. Call Return each line equipped | 2.25 |
| | Per Activation |
| 12. Call Return each line equipped | .50 |
| 13. Automatic Call Back each line equipped | .50 |

VOICE MAIL SERVICES

I. GENERAL

- A. Voice Mail Service is offered as a supplement to residential and business one party main telephone exchange service.
- B. All toll charges incurred through the use of Voice Mail Service will be billed to the Voice Mail Service customer.

II. SERVICE OPTIONS

- A. Voice Mail Basic gives customers basic voice mail service and allows storage of up to 7 messages (new or saved) for 7 days. Messages are automatically erased after 7 days. Maximum message length is 1 minute. One mail box is provisioned with this service.
- B. Voice Mail Enhanced gives customers basic voice mail service and allows storage of up to 30 messages (new or saved) for 30 days. Messages are automatically erased after 30 days. Maximum message length is 2 minutes. One mail box is provisioned with this service.
- C. Additional Mailboxes gives the customer up to 4 additional mailboxes that correspond to his/her main telephone number.
- D. Auto Attendant provides voice prompt questions that guide the caller, via a menu, to the correct individual or function.

III. RATES AND CHARGES

- A. The following rates and charges are in addition to all other applicable rates and charges for services and equipment furnished.

B. RATES AND CHARGES

| | Monthly Rate |
|--|--------------|
| 1. Voice Mail Basic | 3.95 |
| 2. Voice Mail Enhanced | 5.95 |
| 3. Additional Mail Boxes - per set of 4 | 7.45 |
| 4. Auto Attendant | 4.00 |
